CRP Automotive Offers AAE Electric Power Steering Racks for Popular Chevy and Ford Models

- Restored to OE performance and finish, EPS racks for Chevy Cruze and Ford Mustang

Cranbury, NJ... CRP Automotive (crpautomotive.com), a leading source of OE-quality replacement and service parts, now offers AAE Remanufactured Steering Racks for popular Chevrolet and Ford applications. These new offerings include AAE precision remanufactured electric power steering (EPS) racks for 2011-2016 Chevrolet Cruze and 2012-2017 Buick Verano (CRP P/N ER1015) and 2011-2014 Ford Mustang (CRP P/Ns ER1004, ER1074, ER1075- depending on wheel size).

Every AAE Remanufactured rack undergoes an 8-step process to ensure that each part meets strict quality guidelines and industry standards. Each rack is disassembled, cleaned, shot-peened, and hardened to restore OE performance and finish. All racks are fitted with a new drive belt (if applicable), new boots, clamps, bearings, O-rings, and seals.

David Hirschhorn, Brand Director, noted, "These AAE EPS racks are remanufactured to the strictest guidelines and tested to ensure the highest quality and reliability. They are an ideal solution for consumers who are concerned about the cost of repair, but still want to make sure that the part they have installed in their vehicle will not fail."

About CRP Automotive

CRP Automotive is a leader in the manufacture, marketing, and supply of OE quality import automotive parts. CRP provides some of the industry's leading brand names, including AAE Steering System Components, Rein[®] Automotive Parts and Accessories, ContiTech Automotive Belts and Kits, Pentosin Technical Fluids, and AJUSA Engine Parts. All products are backed by the CRP promise of quality and superior service. Founded in 1954, CRP Automotive has established a solid reputation for exceeding its customers' expectations. CRP maintains key distribution centers in the NAFTA market.
