New AAE Remanufactured Electric Power Steering Rack from CRP Automotive Restores OE Performance to Honda CR-V

- First to market EPS rack is electronically tested to confirm no diagnostic trouble codes

Cranbury, NJ... CRP Automotive (crpautomotive.com), a leading source of OE-quality replacement and service parts, has debuted a new, remanufactured AAE Electric Power Steering (EPS) Rack, P/N ER1040. This first-to-market EPS Rack has been developed for Honda CR-V applications from 2012-2014 and is a direct replacement for Honda OE P/N 53601-T0A-A01.

To ensure the highest performance possible, each AAE remanufactured Honda EPS Rack is disassembled, cleaned, shot-peened, and hardened to restore OE performance and finish. During the remanufacturing process, each unit is fitted with new boots, clamps, bearings, O-rings, and seals, while the inner tie rods are re-pressed or replaced.

Every AAE Electric Power Steering (EPS) Rack is electronically tested to confirm that no diagnostic trouble codes are present and endurance tested to ensure OE performance and reliability. CRP Automotive backs the rack with a 2 year/24,000 mile warranty.

About AAE

CRP offers in its AAE brand a wide range of OE-quality steering system components for import and domestic vehicles. The AAE programs include EPS and HPS new and remanufactured parts, as well as EHPS remanufactured parts. Every AAE part undergoes rigorous testing and quality control, leading to one of the lowest warranty rates in the industry. All AAE remanufacturing is done in the USA, ensuring that only high-quality, 100% tested components wear the AAE tag.

About CRP Automotive

CRP Automotive is a leader in the manufacture, marketing, and supply of OE quality import automotive parts. CRP provides some of the industry's leading brand names, including AAE Steering System Components, Rein® Automotive Parts and Accessories, Pentosin Technical Fluids, and AJUSA Engine Parts. All products are backed by the CRP promise of quality and superior service. Founded in 1954, CRP Automotive has established a solid reputation for

exceeding its customers' expectations. CRP maintains key manufacturing and distribution centers in North America.
