Pentofrost E

is an environmentally friendly antifreeze **CONCENTRATE** (H-OAT/ with silicates) for multipurpose applications in water-cooled engines. This coolant provides the same exceptional performance as our Pentofrost ++ but utilizes a more environmentally friendly manufacturing process – now using glycerin in addition to our glycol base.

It contains no nitrites, amines or phosphorous containing additives. Pentofrost E protects all material used in cooling systems and is recommended for non-ferrous metals and year-round use. Pentofrost E can be used where the VW G11, G12, G12+, G12++ or G13 are required. ASTM D-3306.
