

# This Just In!

## FFL2 Kit

The Pentosin DSG Transmission service kit from CRP Automotive combines two of the industry's leading brands, Pentosin & Rein Automotive, together to bring you one SKU ordering. Pentosin FFL-2 is the only approved First Fill and Service Fill transmission fluid for the new generation of AVW double clutch gear transmissions (DSG). Pentosin FFL-2 is founded on a fully synthetic base oil technology for safe operation at even the highest thermal load. FFL-2 features a special clutch friction performance which makes it mandatory to be applied solely to the double clutch gear box - do not mix with any other gear oils.
