PENTOSIN POWER STEERING RESERVOIR SERVICE KITS

Data available through Activant/Epicor, WHI, or ShowMeTheParts.com

Over miles and time, small amounts of wear products will build up in your power steering fluid. These wear products are bits of plastic, rubber and metal from inside the system that naturally wear off over time. As components in the steering system wear, metal particles will contaminate the fluid, which will cause seals in the system to leak and components to eventually fail. Many of these particles can clog the filter, starving the power steering pump of fluid seizing the pump. Completing the recommended interval changes at the manufacturer recommended intervals will ensure continued system performance and can extend the longevity of your car. CRP Automotive has created a kit designed specifically for this service by bringing together two of our great brands – Pentosin, OE approved fluid (CHF 11S) and Rein.

About Pentosin CHF 11S

- OE approved fluid
- Synthetic high performance hydraulic fluid – designed for hydraulics with the highest technical requirements such as; power steering, level control, shock absorber, hydro-pneumatic suspension, stability and traction control, hydraulics for convertible tops, central lock system, etc.
- Suitable for all extreme conditions and guarantees full performance from -40°C to over 130°C system temperatures
- 12 million VIO North America

PENTOSIN KIT# 1405116-KIT-1 (M-B) INCLUDES:		
Contents	OE Part#	Qty.
Pentosin CHF 11S (1L)	Q1320001	2
Rein Power Steering Kit	0004600183	1

PENTOSIN KIT# 1405116-KIT-2 (BMW) INCLUDES:		
Contents	OE Part#	Qty.
Pentosin CHF 11S (1L)	Q1320001	2
Rein Power Steering Kit	32416851217	1

PENTOSIN KIT# 1405116-KIT-3 (BMW) INCLUDES:		
Contents	OE Part#	Qty.
Pentosin CHF 11S (1L)	Q1320001	2
Rein Power Steering Kit	32416851218	1

About Rein

- Rein power steering reservoirs are made of virgin plastic (no regrind) that allow it to better withstand the heat cycles of the engine bay
- Our Rein BMW reservoirs contain the required filter making installation easier since you cannot change the reservoir and filter separately
