PENTOSIN PENTOSPEED LL-14 SAE 0W-20 MOTOR OIL

Data available through Activant/Epicor, WHI, or ShowMeTheParts.com

Changing your motor oil fluid is one of the most important parts of routine maintenance. The use of low friction, fully synthetic oils can help increase engine efficiency and provide fuel efficiency by decreasing engine friction. CRP Automotive offers super high performance, high fuel-economy oil specifically for this service.

Pentospeed LL-14 SAE 0W-20 is uniquely formulated using XTL-technology (Xtreme Temperature Lubrication) in conjunction with state-of-the-art additive technology to provide superior engine oil. With excellent cold starting behavior, extremely fast oil circulation and outstanding performance reserves, Pentospeed LL-14 SAE 0W-20 is one of the most innovative engine oils on the market. By lowering the dynamic viscosity, Pentospeed LL-14 SAE 0W-20 is able to provide significant improvements in power output and fuel economy. It also offers more dynamics but less wear and friction on your engine. Perfect for highly stressed engines, down-sized aggregates or engines with Stop-Start-Systems.

FEATURES & BENEFITS:

- Minimal engine start time with exceptional wear protection in all operating conditions
- XTL allows speedy oil circulation in the engine even at extremely low temperatures
- Significantly lower fuel consumption due to XTL technology
- Lower CO2 emissions
- Up to 18% less oil consumption
- Improved ageing stability due to XTL-technology also in high speed driving and high outside temperatures
- Over 1 million total VIO (US and Canada)
