PENTOSIN PORSCHE PDK TRANSMISSION KIT

Data available through Activant/Epicor, WHI, or ShowMeTheParts.com

Porsche has a 60,000 mile/5 year service cycle for PDK transmissions. As cars get out of warranty to independent shops, they are getting ready for transmission service. Pentosin, brought to you by CRP Automotive, now offers a Porsche PDK Transmission Service Kit that costs 15% less than sourcing the fluid and parts separately.

This first to market Porsche PDK Service Kit includes all OEM components. Pentosin FFL-3 is the only approved First Fill and Service Fill transmission fluid for the new generation of Porsche double clutch gear transmissions (PDK). Pentosin FFL-3 is founded on a fully synthetic base oil technology for safe operation at even the highest thermal load. FFL-3 features a special clutch friction performance which makes it mandatory to be applied solely to the double clutch gear box and cannot be mixed with any other gear oils.

FEATURES & BENEFITS:

- 100% OE components
- Over 60,000 total VIO (US and Canada)
- Complete replacement transmission pan, including hardware, integrated filter, and gasket

CRP Part No. 1052107-KIT-1
