NEW PENTOSIN PENTOSPEED 0W-20 MOTOR OILS

Data available through Activant/Epicor, WHI, or ShowMeTheParts.com

Changing your motor oil fluid is one of the most important parts of routine maintenance. The use of low friction, fully synthetic oils can help increase engine efficiency and provide fuel efficiency by decreasing engine friction. CRP Automotive offers super high performance, high fuel-economy oil specifically for this service.

In addition to the Pentospeed LL-14 SAE 0W-20, Pentosin has introduced two new ultra-low viscosity motor oils: Pentospeed SP IV for Volkswagen and Pentospeed VCC for Volvo. These oils are uniquely formulated using the newest, state-of-the-art additive technology in combination with ultra-high performance base to provide superior engine oil. With excellent cold starting behavior, extremely fast oil circulation and outstanding performance reserves, they are some of the most innovative engine oils on the market. By lowering the dynamic viscosity, Pentospeed 0W-20 oils are able to provide significant improvements in power output and fuel economy. It also offers more dynamics but less wear and friction on your engine. Perfect for highly stressed engines, down-sized aggregates or engines with Stop-Start-Systems.

FEATURES & BENEFITS:

- Minimal engine start time with exceptional wear protection in all operating conditions
- Significantly lower fuel consumption due to newest additive technology
- Lower CO2 emissions
- Up to 18% less oil consumption
- Improved ageing stability also in high speed driving and high outside temperatures
- Over 500,000 total VIO (US and Canada)

Pentospeed SP IV 0W-20
CRP Part No. 8044309 (1L)
CRP Part No. 8044311 (5L)

Pentospeed VCC 0W-20
CRP Part No. 8044313 (1L)
CRP Part No. 8044315 (5L)
