## NEW PENTOSIN ZF AUTOMATIC TRANSMISSION FLUIDS

*Data available through Activant/Epicor, WHI, or [ShowMeTheParts.com](http://ShowMeTheParts.com)*

Transmission fluid services are an important part of regular maintenance and will increase the service life of your transmission. According to the Automatic Transmission Rebuilders Association, 90% of automatic transmission failures are caused by overheating and can be often blamed on transmission fluid that should have been replaced. Completing the recommended interval changes at approximately 50,000 miles can extend the longevity of your car and improve its performance.

CRP Automotive now offers four new Pentosin automatic transmission fluids (ATF 5, 6, 8, and 9) for a wide variety of import and domestic ZF automatic transmissions. Due to the individual design and technical requirements each transmission needs to achieve, it is essential the correct ATF is specified in order to ensure the transmission performs to its potential, providing efficient and reliable operation throughout its lifetime.

- Pentosin ATF 5:** ZF 4 HP // ZF 5 HP: Audi / VW, BMW, Jaguar, Mercedes-Benz, Porsche
- Pentosin ATF 6:** ZF 6 HP: Audi / VW, BMW, Bentley, Hyundai, Jaguar, Land Rover, Maserati
- Pentosin ATF 8:** ZF 8 HP: Audi / VW, BMW, Jaguar, Land Rover, Chrysler
- Pentosin ATF 9:** ZF 9 HP: BMW, Honda

### Features and Benefits

- Made to meet the strict requirements for optimal performance in ZF transmissions.
- Low viscosity technology for smooth and quiet shift.
- Enhanced lubrication for optimum shear stability.
