REIN ENGINE & TRANSMISSION OIL PANS FOR ASIAN VEHICLES

Data available through [Activant/Epicor](#), [WHI](#), or [ShowMeTheParts.com](#)

For some time now, CRP Automotive has provided the industry with Rein Automotive Oil Pan Kits for European vehicles. Rein Oil Pan Kits include the oil pan, gasket or sealant, drain plug, and the one-time use hardware, where needed. By working with the same suppliers we use for the European pans, CRP has now developed a line of oil pans for Asian vehicles, focusing on high volume part numbers that often need replacement due to impacts while driving or rust.

Just like the oil pans we offer for European vehicles, these pans for Asian vehicles will be an exact match for the OE pans, will include the drain plug, and will also have the gasket needed to seal the pan or sealant, where specified.

CRP is proud to offer our customers and the end users of our products these oil pans with all of the ancillary components to ensure they have the necessary components to complete a job easily and efficiently. The Rein Asian Oil Pan program currently has 20 part numbers, of which 17 are currently in stock.

FEATURES & BENEFITS:

- Designed to OEM quality with OEM materials
- Kits include drainplug and washer
- Gasket or sealant also included

CRP Part No. ESK0213
(pan & gasket)

CRP Part No. ESK0211
(pan & sealant)
