## REIN WATER PUMP REPLACEMENT KITS FOR PORSCHE

Data available through Activant/Epicor, WHI, or [ShowMeTheParts.com](http://ShowMeTheParts.com)

Rein Automotive now offers OE-quality Water Pump Replacement Kits with upgraded metal impeller for popular Porsche applications. These kits come complete with steel gasket, thermostat assembly, multi-rib drive belt, all OE accessory drive belt tensioners and idlers as well as all needed hardware.

The engine bays in some rear and mid-engine sports cars can be extremely tight, often requiring technicians to lower the engines to repair the major coolant and belt drive components. Replacing all included components, including the thermostat housing which is prone to heat crack, ensures that weak points have been addressed avoiding future breakdowns or reliability issues.

CRP Part No. WPS0510

### FEATURES & BENEFITS:

- Ensures all sensitive wear parts of the coolant and water pump drive system are replaced
- Helps eliminate future repair needs of related parts
- Includes an upgraded water pump featuring a metal impeller that won't breakdown like plastic impellers
- Includes OE impeller shaft bearing, OE steel water pump gasket, OE idlers, tensioners, and accessory drive belt
