PENTOSIN ATF 64 AUTOMATIC TRANSMISSION FLUID

Data available through Activant/Epicor, WHI, or ShowMeTheParts.com

CRP Automotive now offers **new** Pentosin ATF 64 automatic transmission fluid (CRP Part Nos. 1058113 1L / 1058215 5L) for the modern automatic transmissions of Japanese and American manufacturers where reduced viscosity is required. Pentosin ATF 64 is approved by General Motors (DEXRON-VI) and Ford (MERCON LV) in specified automatic transmissions, as well as JASO 1-A-LV coverage in Japanese automatic transmissions. This long-life fluid has been specially designed to deliver performance and increased fuel efficiency.

Pentosin ATF 64 provides exceptional anti-shudder performance, consistent and strong friction control properties. Pentosin ATF 64 has been developed using selected base oil stocks, combined with specially formulated performance additive technology. It also demonstrates robust shear stability and wear protection, along with its strong oxidation performance to ensure the transmission remains clean and running efficiently.

FEATURES & BENEFITS:

- Specially formulated additive technology provides exceptional anti-shudder performance to improve driving experience
- Consistently strong friction control providing excellent shifting performance
- Supported by real-world testing in a range of passenger vehicles with nearly 1,000,000km driving
- Over 175 million total VIO (US and Canada)
