## **REIN ELECTRIC WATER PUMP SERVICE KITS FOR BMW**

*Data available through Activant/Epicor, WHI, or [ShowMeTheParts.com](http://ShowMeTheParts.com)*

CRP Automotive is proud to offer four new first-to-market REIN Water Pump Service Kits for BMW applications with N20 and N26 engines. These kits are the latest extension of REIN's electric water pump service kit program for popular BMW applications.

The new N20/N26 kits include OEM water pump and thermostat assemblies, all necessary mounting hardware, unique REIN coolant hoses, and an **upgraded** metal hose connector providing a one-stop solution addressing the common failure points of the N20/N26 engine cooling system.

To ensure proper operation and longevity of the vehicle, all related cooling system components should be replaced at a suggested interval of 80,000 miles, in conjunction with a proper cooling system flush and use of OE or Pentosin NF-G11 replacement coolant.

### **FEATURES & BENEFITS:**

- First-to-market kits provide all necessary components for a complete N20 / N26 cooling system service
- Kits include OEM water pump and bolts; thermostat assembly; head to thermostat hose w/ aluminum flange; WP to engine hose; WP to thermostat hose; and all necessary clamps and hardware
- Helps to eliminate a repeat repair
- Addresses common failure of the coolant hose plastic flange
