AAE REMANUFACTURED TRANSFER CASES

AAE ISN'T JUST STEERING ANYMORE

AAE, a CRP Automotive brand, has built its reputation as a trusted leader in remanufactured steering products. Now, we're expanding that expertise into new areas, starting with the introduction of **AAE Remanufactured Transfer Cases for BMW and Land Rover vehicles.**

Remanufactured with OEM Components

AAE Transfer Cases are **fully remanufactured** to meet or exceed OE specifications. Each unit is fully disassembled, cleaned, and remanufactured using OEM components. High-wear parts—including bearings, seals, gaskets, clutches, plastic components, and mounts—are replaced with new to ensure each unit performs to the highest standards. Encoder motor options are available on select units to support a variety of installation needs.

Full Mechanical Overhaul

Every AAE Transfer Case undergoes a **complete mechanical overhaul** rather than a surface-level repair. Our remanufacturing process includes inspection, cleaning, and replacement of all critical components, not just those that show visible wear or damage.

Tested and Backed by CRP

Each unit is **100% tested** to verify proper operation and performance. AAE Remanufactured Transfer Cases are backed by a **2-year/24,000-mile warranty** and supported by CRP Automotive's technical and customer service teams.

OE Fluid Included

Each unit ships with **Rein Transfer Case Fluid TF 0870** (P/N FLDF005), the **OE**

first-fill fluid specified by the manufacturer. Tested with fluid in place, drained before shipping, and ready for installation.
