

OE-QUALITY PARTS FOR EUROPEAN AND ASIAN VEHICLES

Manufactured in Spain. Designed for top European and Asian vehicles. And brought to you by CRP Automotive. AJUSA is a leading brand of OE-quality automotive gaskets, gasket sets, head bolts, head bolt sets, and hydraulic lifters. So the next time you're looking for a way to quickly and easily fill gaps in your coverage, remember to choose AJUSA.

HEAD BOLTS & HEAD BOLT SETS

Cylinder head bolts are responsible for holding the cylinder head to the engine block. On most modern engines, stretch bolts are typically used and must be replaced when the head gasket is changed. AJUSA offers one of the widest and deepest cylinder head bolt programs on the market.

New head bolts are recommended any time a head gasket is replaced — especially in “torque to yield” applications.

- All kits packaged in cardboard boxes with bar codes that can be read on shelf
- Bolts are shrink-wrapped and come with assembly lubricant, ready for installation
- Each set contains all the head bolts required to secure the cylinder head to the engine block (V and H motors require two sets)
- The market's largest selection of bolts for Asian vehicles
