INTRODUCING THE PENTOSIN MERCEDES-BENZ ACTIVE BODY CONTROL SERVICE KIT

NEW!

Clean hydraulic fluid is important for the long term durability of the ABC system. The Active Body Control (ABC) can compensate within milliseconds to the rolling and pitching movements of the body when starting, braking and cornering. Completing the recommended interval changes at 50,000 miles can extend the longevity of your car and improve it's performance. CRP Automotive has created a kit designed specifically for this service using both Pentosin OE approved fluid (CHF 11S) and the Mercedes OE filter.

PENTOSIN KIT# 1405216-KIT INCLUDES:

| Contents | OE Part# | Qty. |
|-----------------------|---------------|------|
| Pentosin CHF 11S (1L) | Q1320001 | 10 |
| OE Filter | 003-184-61-01 | 1 |

About CHF 11S:

- OE required fluid; MB 345.0 approved
- Synthetic high performance hydraulic fluid – designed for hydraulics with the highest technical requirements such as; power steering, level control, shock absorber, hydro-pneumatic suspension, stability and traction control, hydraulics for convertible tops, central lock system, etc.
- Suitable for all extreme conditions and guarantees full performance from -40°C to over 130°C system temperatures
- 12 million VIO North America
