

ANTIFREEZE

PENTOFROST E

Phosphate-Free Multipurpose Antifreeze – Concentrate

DESCRIPTION

Pentofrost E is an environmentally friendly Antifreeze **CONCENTRATE** for multipurpose applications in water-cooled engines. This coolant provides the same exceptional performance as our Pentofrost ++ but it is utilizing a more environmentally friendly manufacturing process – now using glycerin in addition to our glycol base. It does not contain any nitrites, amines, or phosphorous containing additives. Pentofrost E protects all material used in cooling systems and is recommended for non-ferrous metals and year-round use. Pentofrost E can be used where the VW G11, G12, G12+, G12++, G13, and MB G40 are required. Meets ASTM D-3306.
