

Introducing High-Quality Water Pumps and Kits from CRP Automotive

CRP is now offering a select line of European water pumps and kits under our Rein Automotive brand. We consulted with industry experts and discovered there was a need for a quality replacement solution in the market.

That's why CRP Automotive partnered with **DOLZ**, a worldwide leader in water pumps, to bring you a water pump you can have confidence in. Our water pump bearings match the OE design and materials for minimal thermal expansion and low noise. The internal seals are made of silicon carbide used for high-pressure resistance

as well as to reduce noise. They also come with OE-quality gaskets to prevent leakage after installation. Rein offers several complete water pumps and water pump kits that can include the thermostat assembly, temperature sensor, and/or hose. Some pumps offer the option of metal or plastic impeller.

We are so confident that our water pumps will exceed even OE standards, that we have backed them with an industry-leading 4-year/50,000 mile warranty.

Features & Benefits

- Industry-leading warranty: 4 years/50,000 miles
- 45 SKUs for European applications, over 13,000,000 total VIO (US and Canada)
- Choice of plastic or metal impeller material on select SKUs (critical due to engine design/extreme hot weather conditions)
- **CRP is first to market with a problem-solver water pump kit (part #WPL0016)** for the Audi/Volkswagen TSI 2.0L 2008-2015 (US and Canada – excludes SULEV, super ultra-low emission vehicles), which includes the complete assembly plus hardware and OE balance shaft belt (a recommended change based on professional repair technician experience)
