REIN UPGRADED COOLANT PIPE FOR VOLKSWAGEN & AUDI

Data available through Activant/Epicor, WHI, or ShowMeTheParts.com

Rein Automotive now offers an upgraded coolant pipe (CRP Part No. CHU0680) for 2008-2018 Volkswagen and Audi models with the turbocharged 4 Cyl. 2.0L engines. Many OE manufacturers have begun to use plastic pipes, T-fittings, and quick connectors that are highly failure prone. The OE variant of this VW/Audi pipe features full plastic construction which is known to become brittle or crack at various points. The upgraded Rein pipe features full aluminum construction, eliminating the common failure points. The Rein version also includes the required O-ring seal.

CRP Part No. CHU0680

FEATURES & BENEFITS:

- Direct replacement for the OE pipe
- Upgraded quality (full aluminum construction) to ensure long service life
- O-ring included for problem-free installation
