## REIN UPGRADED TURBO COOLANT LINE FOR MERCEDES

Data available through [Activant/Epicor](#), [WHI](#), or [ShowMeTheParts.com](#)

Rein Automotive now offers an upgraded turbo coolant line (CRP Part No. CHU0719) for popular 2012-2019 Mercedes-Benz models with the turbocharged 8 cyl. 4.7L engines. In recent years, many OE manufacturers began to use plastic pipes, T-fittings, and quick connectors in these engines, which have low durability and a high failure rate. The OE version of this turbo coolant line on these models features a plastic fitting and is known for becoming brittle or cracking at various points. Rein's upgraded version features full aluminum construction, eliminating the common failure points of the OE and ensuring a longer, problem-free service life for the part.

CRP Part No. CHU0719

### FEATURES & BENEFITS:

- Direct replacement for the OE assembly
- Upgraded and installed aluminum fitting provided for longer service life than the OE
- O-rings included for problem-free installation

Rein Part No.	OE Reference	Applications	VIO US	VIO CA
CHU0719	2782001000	MERCEDES-BENZ GL450 4.7L 2013-13; GL500 4.7L 2013-15 (MX); GL550 4.7L 2013-16; GLE500 4.7L 2016, 2018-19 (MX); GLE550 4.7L 2016-18 (CA); GLS550 4.7L 2017-19; ML500 4.7L 2012-15 (MX); ML550 4.7L 2012-14; ML550 4.6L 2015 (CA)	55,937	1,848
