## **REIN UPGRADED ALUMINUM OIL FILTER HOUSING**

*Data available through Activant/Epicor, WHI, or [ShowMeTheParts.com](http://ShowMeTheParts.com)*

CRP Automotive now offers a new, upgraded Rein Aluminum Oil Filter Housing (CRP Part No. HEU0115) for popular BMW B46 2.0L 4 Cyl. engines. This first-to-market Rein housing was developed and tested in collaboration with members of our CRP Innovation Council who regularly service these vehicles and could provide valuable insight into common issues with the original plastic part, such as warping and cracking.

The new upgraded Rein housing features full aluminum construction to eliminate many of the common causes for failure of the OE part and to ensure increased durability for a longer, problem-free service life. For easy installation, the oil filter cartridge and mounting hardware are included, as well as a pre-installed oil cooler. To ensure optimal performance, high performance gasket materials are used throughout the assembly

**CRP Part No. HEU0115**

### **FEATURES & BENEFITS:**

- Upgraded aluminum construction for increased durability and performance
- Pre-installed oil cooler for convenience
- Includes mounting hardware and oil filter cartridge
- High performance gasket materials used throughout the assembly
