REIN UPGRADED COOLANT PIPE FOR AUDI

Data available through [Activant/Epicor](#), [WHI](#), or [ShowMeTheParts.com](#)

CRP Automotive now offers an **upgraded Rein Coolant Pipe** (CRP Part No. CHU0774) for 2009-2017 Audi models with turbocharged 4-cylinder 2.0L engines. Many OE manufacturers have begun using plastic pipes, T-fittings, and quick connectors that are highly prone to failure. The OE variant of this Audi pipe features full plastic construction, which is known to become brittle and crack at various points. The upgraded Rein pipe features full aluminum construction, eliminating these common failure points. The Rein version also includes the required O-ring seal.

CRP Part No. CHU0774

FEATURES & BENEFITS:

- Direct replacement for the original equipment (OE) pipe
- Upgraded with full aluminum construction for superior durability and longer service life
- Includes O-ring for easy, problem-free installation
