REIN TECHSELECT TURBO KIT FOR GM

Data available through Activant/Epicor, WHI, or ShowMeTheParts.com

CRP Automotive now offers a new Rein TechSelect Turbo Kit (CRP Part No. TRK0022) for popular Buick 2013-2021 4-Cyl. 1.4L and Chevrolet 2011-2021 4-Cyl. 1.4L engines. This is the first Rein TechSelect Turbo Kit designed for domestic vehicles, marking a significant expansion of this program.

Rein TechSelect Turbo Kits include all the necessary components for a complete turbocharger service or replacement, including turbo oil and coolant hoses, gaskets, mounting hardware, and clamps. By packaging all required components in one box, the kit eliminates the hassle of sourcing individual parts, reducing delays and ensuring more efficient job completion. It is also tailored to specific GM vehicles, ensuring proper fitment and minimizing uncertainty for technicians.

CRP Part No. TRK0022

FEATURES & BENEFITS:

- Includes a new Turbo Oil Return Line Upgrade (CRP Part No. TRU0379) with upgraded stainless steel and rubber hose construction
- Direct replacement to the OE, ensuring optimal performance
- Built to withstand the demanding conditions of turbocharger systems
- Includes all turbo hoses, mounting hardware, clamps, and gaskets needed for easy installation
