AAE REMANUFACTURED TRANSFER CASES FOR BMW & LAND ROVER

Data available through Activant/Epicor, WHI, or ShowMeTheParts.com

CRP Automotive is expanding its AAE remanufacturing program beyond steering with the launch of **AAE Remanufactured Transfer Cases** for select BMW and Land Rover vehicles. These transfer cases are fully disassembled, cleaned, and remanufactured to meet or exceed OE specifications using OEM components. High-wear parts such as bearings, seals, gaskets, clutches, plastic components, and mounts are replaced with new, ensuring consistent and reliable performance. Select part numbers also offer encoder motor options to support a variety of installation requirements.

Each unit undergoes a complete mechanical overhaul rather than a surface-level repair, with all critical internal components inspected and replaced as needed. Units are 100% tested to confirm proper operation before shipping. AAE Remanufactured Transfer Cases are backed by a 2-year/24,000-mile warranty and supported by CRP Automotive's technical and customer service teams. All units ship with Rein Transfer Case Fluid TF 0870 (CRP Part No. FLDF005), the OE first-fill fluid specified by the manufacturer. Units are tested with the fluid in place, then drained before shipping and are ready for installation upon arrival.

FEATURES & BENEFITS:

- Fully remanufactured with OEM components
- All critical wear parts replaced with new
- 100% tested for performance and reliability
- Includes OE-specified Rein transfer case fluid
- Backed by 2-year/24,000-mile warranty
