

MOTOR OIL

PENTOSPEED DEXOS1™ GEN3 0W-20

Ultra-High Performance Synthetic Engine Oil

DESCRIPTION

Pentospeed dexos1™ Gen3 0W-20 is a fully synthetic, ultra-high-performance motor oil developed specifically for General Motors gasoline engines requiring dexos1™ Gen3. Developed to provide Low-Speed Pre-Ignition (LSPI) protection and improved vehicle performance. Offers optimum cold start properties and aging stability for a very good fuel economy throughout the drain interval. Inhibits deposits in engines and turbochargers for reliable operation and reduced maintenance costs. Very low oil consumption due to minimized evaporation loss. Miscible with conventional branded oils, though a complete oil change is recommended to obtain full benefits. Meets ILSAC GF-6A, a specification widely used as a basis by leading manufacturers including Toyota, Honda, Hyundai/Kia, Nissan, Mazda, and Chrysler.
