

WHAT'S HOT 2025

AT CRP AUTOMOTIVE

Remanufactured Transfer Cases

CRP Part Nos. GBA-59251, GBA-59260, GBA-59280, GBA-59281, GBA-51292, GBA-10025, GBA-10085

ATC35L

Multiple applications for BMW & Land Rover

Fully disassembled, cleaned, and remanufactured using OEM components to meet or exceed OE specifications. High wear parts such as bearings, seals, gaskets, clutches, plastic components, and mounts are replaced with new. Encoder motor options are available on select units. Each unit ships with OE-specified Rein transfer case fluid. 100% tested to verify proper operation and performance. Backed by 2-year/24,000-mile warranty.

New HPS Pump Kit

CRP Part No. 5799NKTA

Multiple applications for popular BMW N52 3.0L N/A 2006-13

First-to-market HPS pump kit features a new hydraulic power steering pump with return pipe, plus Rein remote reservoir, upgraded aluminum pulley, and aluminum torque-to-yield single-time use mounting hardware. Remote reservoir contains integrated filter. Comes with all necessary components to ensure a complete quality repair.

TechSelect Turbo Installation Kit

CRP Part No. TRK0022

Buick Encore 1.4L 2013-21; Chevrolet Cruze 1.4L 2011-16; Sonic 1.4L 2012-20; Trax 1.4L 2021

Comprehensive kit for turbo replacement with direct OE replacement components. Streamlines service by including all hoses, gaskets, clamps, mounting hardware, and seals needed, eliminating individual part sourcing. Features upgraded turbo oil return line with stainless steel and rubber hose construction for improved durability.

SELECT PLUS Timing Chain Solution

CRP Part No. CKP0249

Multiple applications for BMW N20 & N26 2.0L engines

Complete timing chain solution includes over 30 OE timing components for a comprehensive 'job in a box.' Road-tested and meticulously researched kit offers a comprehensive and efficient repair solution.

Upgrade Water Pump Service Kit

CRP Part No. WPU0521

Multiple applications for popular N12/14/16/18 MINI engines

Provides all components for a complete repair. Features an upgraded water pump with metal impeller, an upgraded aluminum thermostat-to-water pump coolant cross pipe, the latest thermostat, water pump gasket, and mounting hardware. Metal upgrades resist thermal and mechanical degradation, providing longer service life than plastic.

WHAT'S HOT 2025

AT CRP AUTOMOTIVE

Turbocharger Coolant Line CRP Part No. CHT0964B

Multiple applications for popular BMW 3.0L 2016-23

Problem-solver coolant hose addresses common OE failure point in the turbocharger cooling circuit. Service-friendly design allows technicians to remove the OE clamp and replace only the failed hose section, avoiding full hose assembly replacement. Includes pre-opened clamp for easy installation and consistent sealing.

Upgraded Coolant Pipe CRP Part No. CHU0589

Multiple applications for popular MINI 4 Cyl. 1.6L engines

OE direct-fit replacement for easy installation. Aluminum construction replaces the plastic original, which becomes brittle over time, addressing cracking caused by repeated thermal cycling and hydrolysis thus eliminating common failure points. Upgraded materials and construction provide a longer service life. Includes the required O-ring and retaining clip for a complete installation.

Pentosin CHF 11S Hydraulic Fluid CRP Part No. 1405116

Suitable for vehicle applications that specify DIN 51524-3 or ISO 7308

Formulated for power steering, rear axle steering, level control, hydropneumatic suspension and shock absorbers. Ideal for cold weather climates. Suitable for all extreme conditions and guarantees full performance from -40°C to 130°C system temperature. Compatible with CHF 202.

Pentofrost E 50/50 Antifreeze CRP Part No. 8114306

Multiple applications for ASTM D-3306 and can be used where G12++, G13, G40 are required

Designed for multipurpose applications in water-cooled engines. Contains no nitrites, amines, or phosphorous additives. Protects all materials used in cooling systems and is recommended for non-ferrous metals and year-round use.

Pentofrost SF 50/50 Antifreeze CRP Part No. 8114307

Multiple applications for ASTM D-3306 and can be used where G12, G12+, G40 are required

Designed for multipurpose applications in water-cooled engines and contains no nitrites, amines, phosphorous additives, or silicates. It protects all materials used in cooling systems and is recommended for non-ferrous metals and year-round use.

Pentofrost NF 50/50 Antifreeze CRP Part No. 8114308

Multiple applications for ASTM D-3306 and can be used where G11, G48 are required

Designed for multipurpose applications in water-cooled engines and contains no nitrites, amines, phosphorous additives, or silicates. It protects all materials used in cooling systems and is recommended for non-ferrous metals and year-round use.
