REIN UPGRADED ALUMINUM OIL FILTER HOUSING FOR BMW B58 ENGINES

Data available through Activant/Epicor, WHI, or ShowMeTheParts.com

CRP Automotive now offers an **upgraded** Rein Aluminum Oil Filter Housing (CRP Part No. HEU0116) for popular BMW B58 3.0L 6 Cyl. engines. This housing was developed and tested in collaboration with members of our CRP Innovation Council who regularly service these vehicles and could provide valuable insight into common issues with the original plastic part, such as warping and cracking.

The new **upgraded** Rein housing features full aluminum construction to eliminate many of the common causes for failure of the OE part and to ensure increased durability for a longer, problem-free service life. For convenience during installation, the assembly includes an **OEM oil filter**, mounting hardware, and a pre-installed oil cooler. High performance gasket materials are used throughout the assembly.

FEATURES & BENEFITS:

- Upgraded aluminum construction for increased durability and performance
- Includes OEM oil filter and mounting hardware
- Oil cooler pre-installed for convenience
- High performance gasket materials used throughout the assembly
